

STATIC DISCHARGE PROTECTION MODULE OF LCD DISPLAY
CONTROL BOARD OF PORTABLE COMPUTER

ABSTRACT OF THE DISCLOSURE

[0022] The present invention relates to a static discharge protection module of LCD display control board of portable computer which have an insulation sleeve, a LCD display control board and a metal foil which pressed on the insulation sleeve. The present invention can reduce errors by human labor to adhere conductive cloth to wrong position below front frame, can reduce materials, such as conductive cloth, conductive foam, and can effectively solve the problems of ESD test failure of LED indicator.
